

I acknowledge that I have viewed the following safety instructional videos:

- North Carolina Center for Safe Schools Critical Incident Response for School Faculty and Staff.
- Standard Response Protocol guidance video.

I understand and acknowledge that the North Carolina Center for Safe Schools Critical Incident Response for School Faculty and Staff is intended as an additional training tool for faculty and staff and is not recommended as a training tool or aid for students and minors.

I have also been given access to the Standard Response Protocol K12 2023 Operational Guidance for Schools as a reference for safety protocols and critical incident response, as well as an overview for appropriate drill response.
