

Grover C. Fields Middle School

8th Grade Math

Week of December 7-11, 2020

Vocabulary:

Undefined, horizontal slope, y-intercept, x-intercept, slope, linear relationship, $y=mx+b$

Students will know and be able to:

- Distinguish between positive, negative, zero and undefined slope
- Determine slope from given points on a graph
- Determine slope from a table of values
- Graph lines from an equation in slope-intercept form

Daily Assignments & Announcements

Monday
12/7

Zoom: Solutions to Equations
Assignments: IXL Solutions to Equations

Tuesday
12/8

Zoom: Algebra and Missing Angle Measures
Assignments: Check powerschool and submit any missing assignments.

Wednesday
12/9

NO ZOOM
Assignment: Angle Measures with Algebra

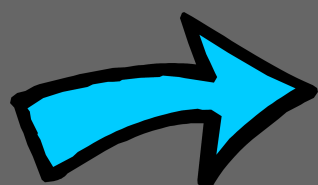

Thursday
12/10

Zoom: Review for the Benchmark
Assignments: Check powerschool and submit any missing assignments.

FRIDAY
12/11

Zoom: No Zoom, Science Benchmark
Assignments: Check powerschool and submit any missing assignments.
